

public health facilities, public recreational facilities, and public office buildings."

Can we take advantage of this exemption because you can't get onto the bus or into the hospitality area unless you are a certified smoker, 21 or older? I think that we would have to have a licensed security guard. Unless of course we are not on public grounds at all.

My memory is probably defective but don't I remember a limited definition of public area in the Houston law - and doesn't California have an exemption for private functions? If I'm wrong on both points your answer is perfect as is

Ginny - I prepared the following response to Claire's inquiry. Can you please review and comment before I send it? Thanks.

Houston does not prohibit sampling to adults 21 or older. They do prohibit any kind of advertising (not tobacco specific) that is located in any public area unless consent is obtained from the city council for placing such advertising. This may or may not affect you, depending on what you plan to do in Houston.

We can not sample or provide coupons for free product anywhere in California.

St. Louis County, MO does not prohibit sampling to adults but requires that signage be posted at any sampling location.

There are no sampling restrictions in Miami.

I do not have any information re zoning restrictions or permit requirements in these locations. [Ginny - should I ask Dorothy to check them out?]

Anything and everything! Thx.

Also, any info on Parliament markets forwarded to you by Maria Cohen? GMR would like to get started on booking the clubs.

Thanks for your help!
